

GOT PESTS?

Hire our expert **BARNYARD GUARDIANS** to work for YOU!

Our **BARNYARD GUARDIANS** are **100% all-natural, pesticide-free rodent controllers**. These beautiful, healthy cats are pros at keeping pesky critters from moving in. They don't need much - some food, water and a warm place to sleep. And they always protect your turf, whether it's a barn, warehouse, garage, deck, store, brewery - anywhere you have a pest problem.

(Please note, our barn cats are feral/semi-feral cats.)

To hire your **BARNYARD GUARDIANS** contact Colony Cats (& dogs) • 614-570-0471

What WE Provide:

- **Someone to catch those pesky pests** at no charge (fee waived, but donations appreciated).
- **Cats that are fully vetted** - our Barn Cats are spayed/neutered, and rabies vaccinated.
- **Acclimation instructions** to help your new cats feel secure in their new location.
- **Free delivery**

What YOU Provide:

- **A second chance** for a pair of homeless cats who would otherwise be euthanized. (Must adopt at least two cats for bonding.)
- **Daily food & water, and shelter** - cats cannot live on mice alone!
- **Veterinary care** - as needed
- **A small, safe place** for your new cats to acclimate for the first 2 weeks.
